

ACKNOWLEDGEMENTS

This inventory is the result of the hard work and dedication of many contributors from the University of North Carolina at Greensboro. They made a commitment from March to June of 2010 to provide assistance to the development of this project. A three month period is quite accelerated for such an effort that it takes a good team like that which we have to make this project happen. We extend our gratitude to the following contributors listed by contribution and department.

Administration

Jorge Quintal, Associate Vice Chancellor for Facilities, Facilities
Sandra Redmond, Capital Administrative Officer, Facilities
Trey McDonald, Sustainability Coordinator, Facilities
